

## Stories of life

words / music by Fred Mattrob

I made a wish one day that we could stand together  
Children would find their way and love would live forever  
Come, and look around  
Where the old settle down

Come, hear the sound of the people  
Who believe that we could live as one  
I know we'll make it all the way  
Come, and look around  
There are places in your heart where love is found, I know  
We'll turn our page in stories of our lives

It's not too hard to make a dream come true  
Just believe in yourself and it will come to you  
Honor your life and where beauty lies  
Don't be scared, we're here for each other  
Come, and look around  
Where the old settle down

Come, hear the sound of the people  
Who believe that we could live as one  
I know we'll make it all the way  
Come, and look around  
There are places in your heart where love is found, I know  
We'll turn our page in stories of our lives

Have faith in the power that love still controls  
Together we'll live through it all  
Believe in me as I believe in you  
It's the perfect experience

Come, hear the sound of the people  
Who believe that we could live as one  
I know we'll make it all the way  
Come, and look around  
There are places in your heart where love is found, I know  
We'll turn our page in stories of our lives
